

Incident reporting in schools – Term 2, 2012

How schools manage the safety and security of its students and staff.

Our schools are among the safest places in our community for children and young people. However, from time to time, incidents do affect schools just as they affect communities and society as a whole.

Following such an incident, the principal notifies the department's School Safety and Response Hotline so support and advice can be provided to assist the school with the management of the incident. If the principal believes the incident may involve a criminal offence they are required to also notify the NSW Police.

The School Safety and Response Unit Hotline is available to assist principals 24 hours a day, seven days

a week. Senior police and education officers in the unit can provide immediate support and advice on the management of any school-related incident involving violence, weapons, illegal drugs or other criminal activity.

Through the NSW Department of Education and Communities' commitment to improving transparency and ease of access to information, the reports are being made available to the public. In doing so, the department is committed to the welfare of students and staff in NSW public schools. As such, references have been removed which could expose a person to a risk of harm or which reveals the identities, or the personal/health information of students, school staff

and community members. Information that may prejudice an investigation has also been removed.

The reports are released with a one term delay. Publishing these reports informs the community about significant incidents in public schools and how the department supports schools through incidents while still protecting students and staff.

The vast majority of schools, more than 91 per cent, did not need to report a single incident in Term 2, 2012. Less than seven per cent reported only one incident.

Weapons Related - Student threatens another student with scissors

Narrative

A [redacted] (informant) contacted the deputy principal with concerns for [redacted] who has received online threats from a [redacted] male (YP). [redacted] would not provide a transcript of the threats.

The deputy principal investigated and, while interviewing peers of the YP and victim, became aware of other incidents.

The victim and a witness claim the YP took scissors from his bag and held them to the throat of the victim. This was not reported to anyone at the time.

[redacted] reported seeing the YP write a "Die list" in his history book during class. The list included [redacted] the name of the student he threatened online and several teachers.

The YP's peers are concerned for the YP mental stability. They claim he has been using drugs but not while at school.

The YP is to be suspended for the threat with scissors. While he is on suspension a risk management plan will be developed.
