

Incident reporting in schools – Term 3, 2012

How schools manage the safety and security of its students and staff.

Our schools are among the safest places in our community for children and young people. However, from time to time, incidents do affect schools just as they affect communities and society as a whole.

Following such an incident, the principal notifies the department's School Safety and Response Hotline so support and advice can be provided to assist the school with the management of the incident. If the principal believes the incident may involve a criminal offence they are required to also notify the NSW Police.

The School Safety and Response Unit Hotline is available to assist principals 24 hours a day, seven days

a week. Senior police and education officers in the unit can provide immediate support and advice on the management of any school-related incident involving violence, weapons, illegal drugs or other criminal activity.

Through the NSW Department of Education and Communities' commitment to improving transparency and ease of access to information, the reports are being made available to the public. In doing so, the department is committed to the welfare of students and staff in NSW public schools. As such, references have been removed which could expose a person to a risk of harm or which reveals the identities, or the personal/health information of students, school staff

and community members. Information that may prejudice an investigation has also been removed.

The reports are released with a one term delay. Publishing these reports informs the community about significant incidents in public schools and how the department supports schools through incidents while still protecting students and staff.

The vast majority of schools, more than 90 per cent, did not need to report a single incident in Term 3, 2012. Seven per cent of schools reported only one incident.

Assault - Parent threats following assault of student

Narrative

During the previous evening a Year 8 female (YP1) wrote abusive comments about another Year 8 female (YP2) and her family. YP2 retaliated with abuse of her own and her Year 11 sister (YP3) also became involved. The mother of YP2 and YP3 told the girls to report the matter to the school the following day however YP3 confronted YP1 at school.

YP1 sent a text message to her mother to say she was being harassed by YP3. Her mother responded and advised YP1 to just walk away, which YP1 attempted to do. YP3 continued with the abuse and harassment until YP1 turned and assaulted YP3. YP3 retaliated with punches to YP1's face. YP2 also became involved in the assault.

YP1 was given first aid for a swollen eye.

A short time later YP1's mother and older brother (POI1) attended the school in an aggressive state. When POI1 started looking for YP2 and YP3, a lockdown was called. The relieving principal (RP) calmed the situation and advised the mother and POI1 to take YP1 for medical attention.

YP2 and YP3 were in a safe area of the school and writing statements of the incident with YP1.

Some time later YP1's father (POI2) came to the school, accompanied by YP1 and her mother. He was very angry and wanted to get into the school to confront YP2 and YP3. The school gate was still secure and the RP went out to speak with POI2 and another lockdown was called.

Police were called for assistance. Police arrived and spoke with POI2 who then left the area. Police also spoke with YP1 and her mother before speaking with YP2 and YP3.

Alleged misconduct and threats made by staff member toward student

Information

A [redacted] male (victim) was playing hockey with a group of boys and a School Learning Support Officer (POI). Several witnesses reported that the POI started 'flinging' and 'twirling' the victim around. The victim was heard to tell the POI to let him go.

Once the victim was seated, there was further bantering which escalated when the victim told the POI to go away. The POI became very aggressive and yelled and swore at the victim and the group of boys.

The POI disclosed inappropriate personal matters with the group.

The POI directed his aggression back at the victim yelling and swearing that he would be punched in the head if he called him names again. The aggression displayed by the POI intimidated the victim and he became visibly upset by the threat.

The POI continued to threaten the victim and told him that he didn't care if the victim got his friends or family involved. Reports indicate that the victim was visibly shaken, scared and spoke about it with friends who witnessed the incident.

The POI returned to the victim again and told him that he didn't care if he loses his job or goes to gaol about the matter. The victim became pale and continued to cry.

A deputy principal (DP) observed the distressed victim and consoled him. The victim replied that he was OK.

The POI also attended seemingly to portray concern for the victim. When the DP left, the POI told the YP he was only 'giggin' (meaning that he was joking).

The DP was later advised about the detail of the incident by witnesses and informed the principal by phone.

Under instruction from the principal, the DP reported the matter [redacted]

Narrative

Two parents attended the school with their daughters a (victim 1) and a (victim 2). The parents spoke to the principal regarding the victims' access to a social networking site and possibly being groomed by an unknown adult male (POI).

Another image showed victim 2 wearing the school shirt, which is a possible means of identifying the victim 2's school location.

The POI has commented on certain photos using sexual connotations and has requested from the victims.

The victims appear to have used their DEC e-mail accounts to establish the social networking site account.

The principal advised the parents to report the matter to police.

Action

The SSRU has sent the school as number of Legal Issues Bulletins and LINKS information about these incidents.

The SSRU has advised the school that the DEC email account used could not be accessed or viewed by the POI, but only used by the social networking site to verify the users' subscriptions.

Student attempts to assault DP

Information

A Year 9 male (YP) was observed smoking in the playground. The YP appeared stressed and swore at the deputy principal (DP) when he approached before threatening to assault him.

The DP attempted to calm the situation before again attempting to approach the YP. When approached, the YP put his bag on the ground and swung his fist toward the DP's head.

The YP was restrained on the ground for a short time before the DP released his restraint and escorted the YP from the school.

Shortly afterward, the YP's father (POI1) attended the school in an agitated state and threatened to physically assault the DP. The principal was able to calm POI1 down and advised him that he would look into the matter.

The principal walked POI1 to his vehicle and observed the YP's 17 year old brother (POI2), who is a former student, walking toward the school with a bat. POI1 and the principal convinced POI2 to drop the bat and he proceeded towards the school where the principal denied him access. The POIs left the school without further incident.

The principal spoke to the DP and sent him home for welfare reasons and is offering appropriate support.

The school will consider a long suspension or expulsion for the YP.

Action

The SSRU has recommended the school issue the POIs with Inclosed Land Act warning letters for their actions.
